The University of Cincinnati is beyond a dream. I have followed my heart along the UC pre-med path that has prepared me for medical school and provided me experience-based learning opportunities as a Newborn Intensive Care Unit volunteer at Cincinnati Children's Hospital and as a Patient Care Assistant at the University of Cincinnati Medical Center. **Becoming a Bearcat is one of the best decisions I have made** and with UC's continued support, I know that I am one step closer to becoming a physician.

Live inspired.

No rest for the **'wow factor.'**

Since our campus master plan was first set in motion in 1989, **we've never stopped innovating our living and learning spaces.**

The **most ambitious campus-design** program in the country. —*The New York Times*

I remember the first time I stepped foot on campus, I instantly felt like I was at home. The environment and fellow Bearcats made me feel like this was where I was meant to be. I still feel that sense of community and connection to the campus!"
